PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of hands-on experience designing and building end-to-end applications across web, mobile, and desktop platforms. Highly skilled in solving technical challenges whether debugging complex issues, optimizing performance, or implementing secure authentication and role-based systems.

Proficient with React, Next.js, Node.js, Express, TypeScript, Python (Tkinter), Flutter, Firebase, MySQL, and MongoDB. I deliver structured, scalable, and user-centered solutions, from database design and backend APIs to frontend UI/UX and mobile interfaces. Known for adapting quickly, managing multiple features at once, and consistently delivering reliable, maintainable code

EDUCATION

North Central Mindanao College, Philippines   **2021 - 2025**
Bachelor's of Science, Computer Science

WORK EXPERIENCE

Freelance Full Stack Developer   **Remote | 2022 – Present**
- Completed 33+ client projects for local businesses and student systems
  Delivered modern, responsive, and scalable applications
  Specialized in systems for retail, school, and healthcare sectors.

PROJECTS

- **AI Travel Planner -** (2022). Developed using React Native and its libraries with Firebase database, authentication, and Gemini AI. Unpublished software project.
- **Inventory Management System -** (2023). Inventory management system using Next.js, Shadcn UI, TailwindCSS, MongoDB, and SSR. Unpublished software project.
- **Health Appointment System -** (2023). Health management platform using Next.js, Firebase, Shadcn UI, and TailwindCSS. Unpublished software project**.**
- **Queue Management System -** (2024). Queue management system using Python Tkinter, MySQL, and TkBootstrap. Unpublished software project.
- **CodeFlux Code Docs App** - (2024). Mobile application for programming documentation built with Java, Android Studio, and SQLite. Unpublished software project.
- **Bloodbound Healthcare -** (2024). Healthcare management system built with PHP and MySQL. Unpublished software project.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Java, C#, PHP, TypeScript, SQL
- **Frontend:** React.js, Next.js, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, Laravel, ASP.NET Web API, RESTful APIs
- **Mobile Development:** React Native, Flutter, Android Studio(Java)
- **Desktop Development:** Tkinter (Python), Java Swing, C# WinForms/WPF
- **Databases:** MongoDB, MySQL, PostgreSQL , Firebase
- **Tools & Others:** Git, GitHub, VS Code, Postman, Docker (basic), Firebase Auth
